CHILD / TEEN CLASSES

SUMMER YOUTH PROGRAM INFORMATION

SUMMER YOUTH PROGRAM— HERE'S WHAT YOU NEED TO KNOW...

Our kids/teens summer program is set up into three sessions. Each session is two weeks long and runs every weekday, Monday through Friday (excluding holidays).

Session #1: June 24th – July 5th (no class July 4th)

Session #2: July 8th – July 19th

Session #3: July 22nd – Aug 2nd

Each session, classes begin every two hours (8am, 10am, 1pm & 3pm). You choose the dates that work for you, then choose the class(es) you want your child to take.... *it's up to you!*

ENROLLMENT

- Students Exposure to College: These icons below represent the Learning Career Pathways at Cerritos College. You will see them throughout our schedule as a way to immerse our youth in the Cerritos College Experience.

<https://www.cerritos.edu/learningcareerpathways/default.htm>

- On pages 6-8, you will find our **Youth Schedule Planner**; this is our “cheat sheet” to help you easily see the main details about each session (dates, times, class titles). We also provide the age range for the class, as well as the page numbers as to where you can find the description details about each class.
- Your child is registered in a class upon payment for that class.
- Session #1 classes will not have class on Thursday, July 4th (holiday), the registration fee is reduced, due to one less class meeting.
- Classes are filled on a first come, first served basis. If a class is full, you can put your child on the waiting list. If a spot opens in that class, you will be contacted to see if you want to register your child at that time.

SUMMER YOUTH PROGRAM INFORMATION

TEACHERS & STAFF

- Classes are taught by qualified teachers – all academic courses are taught by credentialed school teachers, teachers with college level teaching experience, or those who hold a Bachelor's degree or higher and our enrichment courses are taught by instructors who have extensive experience in the subject being taught.
- There are student assistants helping in classes and during transition times and breaks.
- All teachers, student assistants and office staff working at Cerritos College have been fingerprinted and have a clean background check.

ARRIVAL & DEPARTURE

- Students should arrive 10-15 minutes prior to their class. You may pull up and drop off your child at our pick-up/drop-off area (located in parking lot 9). In that lot, there will be staff as well as signs to guide you as to where to go and drop off your children.
- Do not drop off your child prior to 7:45am – there is no supervision before this time. Also, please make sure you pick up your child after their class(es) end; there is no supervision 15 minutes after the end of each class.
- If you park on campus you will need a pass. You can purchase a daily pass for \$3 or a weekly or monthly pass. Please visit PayMyCite.com for more information.

FISH OUT OF WATER (*Supervised fitness and fun after swim*)

- If your child's swim class is between 10:15am- 11:30am or 1:05pm - 2:25pm, our College for Youth staff will take them and pick them up from the pool. If they take a swim class between 12:00pm – 1:05pm or 2:25pm – 3:40pm, a parent guardian is responsible for taking them and picking them up from their swim class.

BREAKS & LUNCH

- Children are supervised during the 15-minute transition time before and after classes.
- If your child brings a snack, we ask that they eat it during the transition time between classes and not during class.
- Lunch break is from 11:45am – 12:45pm; your child must bring a sack lunch, there are no campus lunch options available.
- Lunch break is supervised by our student assistants. There is no additional cost for this supervision; however, please register your child for this service so that we know how many kids will be staying with us over the lunch break.

SUPERVISION

- There is supervision of students 15 minutes before & after classes, during all class times as well as during breaks and lunch.
- Our student assistants will help with the drop-off / pick-up of your children (getting them in and out of your car safely) and assist them in lining up for their class. For their safety, please drop off only in the designated drop-off / pick-up area
- Your child will be escorted to and from their classes by our student assistants and their teachers.

CHILD / TEEN CLASSES

SUMMER YOUTH PROGRAM INFORMATION

- For their safety, we require all students 12 or younger to be with one of our staff members or teachers; while on campus they are not allowed to be on their own at any time.

PROGRAM POLICIES

- Only registered students are allowed in the classrooms - no parents, other adults, or other kids who are not registered are not permitted in the class(es).
- Respect for self, others, materials, and equipment will be expected. In the event that a student is not meeting our code of conduct, we will try and work out the situation with the student to minimize any disturbance/disruption to anyone (the student, his/her classmates, and/or the teacher).
- If you need to cancel or transfer any class, we need three or more business days' notice prior to the start of the class(es). There will be a \$10 fee charged for any cancellations or transfers.

READING & WRITING

STRATEGIES FOR STRENGTHENING READERS

GRADES 1-3

Many young readers find it hard to read smoothly, which makes it difficult for them to understand what they read. Guided reading, done in small groups or one-on-one, helps them learn to use context, visuals, and the structure of the story to understand better. This class focuses on improving both reading speed and comprehension, especially for slower readers.

Mon-Fri, 7/8-7/19

1:00pm-2:45pm

Teacher: Community Education Staff

READING COMPREHENSION & IMPROVEMENT STRATEGIES

GRADES 3-5 & GRADES 6-9

Master the skills for effective reading! Learn to find main ideas, increase vocabulary, draw conclusions, and understand an author's purpose and point of view. Discover techniques like sequencing, cause and effect, comparison and contrast, and inference. Explore comprehension strategies for short stories and chapter books. Develop close reading skills to identify themes, social commentaries, and impactful word choices for deeper understanding.

POWERHOUSE WRITING

GRADES 5-9

Students will work on developing clear and precisely written paragraphs on a variety of topics. They will create strong topic sentences, interesting details and sensational closing sentences using a "powerhouse" format. They will learn to write expository, narrative and descriptive paragraphs and work on how to put these together effectively to create a longer piece by the end of the course.

CREATIVE WRITING

GRADES 5-9 & 9-12

Do you have the desire to express yourself through stories and poems? Do you enjoy using your imagination? This class will explore the basics of creative writing, including collecting your ideas, words and thoughts to write your own poems and stories. Example poems and stories will be shared in class. You will leave class with a piece of writing that is unique to you.

READING & WRITING

ACADEMIC ADVENTURE

GRADES 1-3

Kick off your summer by reinforcing this year's language AND math concepts and getting ahead for next year. The language arts section emphasizes phonics, reading, writing, speaking, and listening; the mathematics section incorporates a hands on approach through games and activities to mathematical ideas and concepts. Learning happens here using a variety of fun-filled activities designed to increase your child's skills, ultimately increasing their ability for success in school.

READING & WRITING ROAD TRIP

GRADES 1-3

Get your child on the road to being a successful writer! Students will read short selections to determine the structure of a story. Then, they will pre-write, brainstorm ideas and write a rough draft for their own story. During the second week, they will revise, edit and create a final copy of their own story, which they can then share with you!

SPEECH & COMMUNICATION

PHONICS & READING FLUENCY

GRADES 1-2

Phonics and blending sounds together to make words are important skills for reading. In order to read more fluently and to comprehend what we read, we need to sound out words correctly and recognize them as words. This class will focus on phonics, learning the sounds needed to put together to make words. It will also put words together to make basic sentences that students can read with fluency and expression. It will include a variety of hands-on activities, group and individual work and practice drills to help increase fluency and reading skills.

CREATE YOUR OWN STORYBOOK

GRADES 1-4

Let your child's imaginations soar! They will be able to create their own storybook – written and illustrated by them! Throughout the class, your child will be helped in developing/writing their own story. They will be able to experience different drawing and painting techniques as well as different mediums to create illustrations for their story. By the end of the class, your child will have their very own storybook.

GRAMMAR GEAR-UP!

GRADES 3-6

Language mechanics and basic grammar skills are too often overlooked and yet are the foundation for good written communication. Students will review parts of speech, mechanics, and the most common writing mistakes kids make. Your son/daughter will "gear-up" on their grammar and will be armed with what they need to know to be more successful in their writing.

SPEECH & COMMUNICATION

AMERICAN SIGN LANGUAGE (A.S.L.)

GRADES 5-12

In this intro class, you'll learn basic signs, as well as a bit about the history of signing and etiquette when interacting with a deaf person. Lessons will be taught in an interactive manner through the use of role play, videos and worksheets.

Who knows, perhaps you'll decide to continue your learning and become a certified interpreter one day! This is also a good way to see if you might like to pursue ASL in college (ASL is recognized by the GSU's and UC's as a credit bearing class through the UC's or CSU's).

Mon-Fri, 6/24-7/5 (no class 7/4) 8:00am-9:45am

FOREIGN LANGUAGE

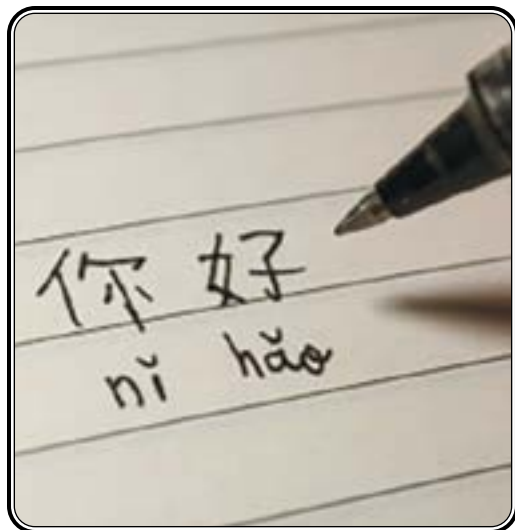

CHINESE LANGUAGE & CULTURE

(GRADES 5-12)

This course is taught in both English and Mandarin Chinese and is designed for non-native speaking students. Students will learn the basics of Chinese conversation including pronunciation, vocabulary, and basic Chinese letters. Also, you will learn about the geography, customs, celebrations and culture of the Chinese people.

Mon-Fri, 7/22-8/2 3:00pm - 4:45pm

SPANISH INTRODUCTION

GRADES 3-6 OR GRADES 7-12

Would you like to learn how to speak a different language? Spanish is spoken frequently in California, making it the best second language to know! An introduction to vocabulary and the basic structure of the Spanish alphabet will be taught. Speaking and listening comprehension will be emphasized through the use of realistic conversation in class. Writing and reading activities will also be done regularly in this class.

MATH BASICS

MATH: STRONG FOUNDATIONS

GRADES 1-3

Help your child gain the fundamental skills they need to be successful in all subsequent math classes. They will practice and improve their skills in addition, subtraction and multiplication. Through group activities and math games, your child will be learning math concepts while they are having fun! There will also be some independent work where they can work at their own pace, getting assistance when they need it.

MATH

MATH ESSENTIALS

GRADES 3-6

Once your child has mastered basic adding, subtracting and multiplication, there are other core skills that they will need to learn. This class will cover the other fundamentals such as complex multiplication, division, word problems, lowest common multiplier (LCM), greatest common factor (GCF), and lowest common denominator (LCD). Once these concepts have been introduced, students will work at their own pace, with the instructor helping them individually as they need assistance.

FRACTIONS, DECIMALS, PERCENTS – OH MY!

GRADES 4-8

One of the most difficult concept for students to learn is fractions...this class will help students become more familiar and comfortable with fractions, decimals and percentages through the use of notes, lecture and activities to stimulate learning. The class follows the elementary and middle school standards for math. Learn the skills needed to be able to feel ready to handle problems with fractions, decimals and percentages - it doesn't have to be scary!

GEOMETRY

GRADES 8-12

Study the system of geometry by starting with the basics. Learn the correct way to a note a line, ray, an angle, or line segment. Learn the hierarchy of intersections, and triangles. Study parallel and perpendicular lines and the angles they make. Become skilled at geometric solids and how to find their areas...and more. Once these concepts have been introduced, you will be encouraged to work at your own pace, with the instructor helping you individually as you need assistance.

PRE-ALGEBRA

GRADES 6-9

You will learn about substitution, how to solve one and two-step algebraic problems, as well as work with exponents. You will also learn to factor polynomials and the coordinate plane. This class is designed to aid you in the discovery of pre-algebra. Once these concepts have been introduced, students will work at their own pace, with the instructor helping them individually as they need assistance.

ALGEBRA II

GRADES 8-12

Advance your algebra skills to the next level. Learn how to graph and solve the absolute value function, the inequality function, and the quadratic function. Discover the laws of exponents and the inverse functions of logarithms. Learn to factor perfect squares, differences of squares, and the sums and differences of cubes. Enter the world of the matrix - learn how to solve a system of equations in 3D using Krammer's Rule. You are encouraged to work at your own pace, with the instructor helping you individually as you need assistance.

OOEY GOOEY SCIENCE

GRADES 2-4 & 5-7

This is a messy but super fun way to learn science. We will have scientific activities that will help them explore, explain, and elaborate on their understanding of chemical reactions and every day we will have hands-on experiments.

Your child will learn whether slime is a solid or a liquid and will explore polymers, non-Newtonian fluids, and much more. We will make: Stretchy Slime, Fluffy Slime, Magnetic Slime, Beady slime, Edible Slime, Thread Wormy Slime, Snow Slime, glow in the Dark Slime to name a few of fun Ooey Gooey things we will do together!

ROBOTICS: LEVEL I

GRADES 6-9

Students will learn to create and build LEGO robotics utilizing machine-tools and engineering design software. Students will also use software to program their robots and compete against other students in the class. Students work in teams of 3-4 and learn valuable skills such as how to creatively team with other students in addition to practical skills in Manufacturing Technology, mathematics and engineering.

ENGINEERING DESIGN WITH CAD

GRADES 5-8 OR 9-12

Does your son or daughter love computers and drawing? Perhaps considering a job someday in the fields of engineering design, computer science or manufacturing technology? This might just be the class for them to foster those interests! Students will learn to design and create computer drawings utilizing a CAD (Computer Assisted Drafting) engineering design software.

The younger students will learn how to use the software to program and design various items such as toys, a play center that one would see at a park, in addition to learning how to create buildings in a city. The older students will learn how to design a home, a layout of a home, add furniture and other decorative items. They will also learn to design a simple home exterior, kitchen, custom rooms, and more.

Students will work in-person increasing their skills in mathematics, technology and engineering.

COLLEGE PREPARATION

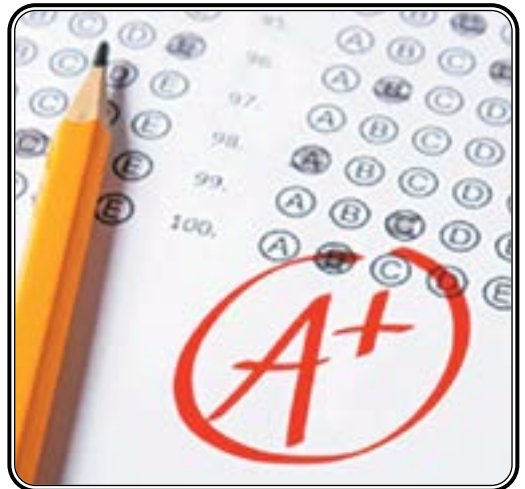

NATURAL “A’S”

GRADES 4-11

Any student can significantly improve grades, self-confidence, and chances for scholarships and college admissions by performing academic skills in alignment with the brain’s natural patterns. This makes Note-taking, Reading, Studying, Memorizing and Test-taking amazingly efficient. Also discover simple methods for understanding math, science, literature, history, and other subjects; increasing focus and concentration; and eliminating test anxiety. Students of all ages describe this class as “awesome,” “necessary,” and “easy to understand.”

NOW YOU'RE COOKING! JR. CHEF

GRADES 1-4

The ability to follow directions is one of the most important skills for a child to have in order to be successful in schoolwork. Cooking is a great way to acquire the skill along with math and reading comprehension skills.

Students will learn how to make tasty and healthy snacks like veggie lasagna, veggie egg rolls, biscotti, frittatas, blondies, bread in a bag with homemade butter, pizza dough and pizza, and apple dumpling bake. Students will make a small recipe book to start building on the items they have learned to make. Best of all, they get to eat what they make!

DRAWING & PAINTING FUNDAMENTALS

GRADES 1-3 & 4-8

Students will learn fundamentals of drawing and painting while experiencing different mediums. We will be drawing on a daily basis, as practice is the best way to learn to draw. Yet we will expand to different mediums with every new project. The materials we will be using will be pencils, graphite blocks, charcoal, chalk pastels, sumi ink, watercolor and acrylic paint. The projects will be created on different surfaces such as charcoal paper, rice paper, watercolor paper and canvas.

(INTERMEDIATE RIDING CLINIC)

MUST BE 21 AND OVER TO TAKE THIS CLASS

Developed by Total Control Training, and the CMSP, the 1-Day Premier and Intermediate Riding Clinic Courses are the perfect next step for current riders who are looking to improve their skills as well as veteran riders that have recently returned to riding and need a refresher session. If your goal is to obtain an M1 license and your skills are beyond the basics, the 1-DP class is definitely the course for you. Upon successful completion, you will be issued a DL389 certificate which may enable you to waive the riding skills portion of the DMV license application. If you already have your Class M1 license and have more than 500 miles of experience and may not have ridden for a while, the IRC class is for you.

These courses include both short classroom sessions and hours of riding exercises. The IRC & IDPC are based on the most current research in rider safety, utilize modern training methods and have been proven to enhance student outcomes. Although designed primarily as a safety course, the course is also challenging and fun and it is completed in one 8-hour day.

We can provide a motorcycle for you if you sign up for the 1 Day Premier and should need one.

REIKI I & REIKI II (COMBINED) *(online)*

These courses are based on the Japanese natural healing system called Reiki, which translated from Japanese means “universal life force energy.” Reiki is an energy based system that allows relaxation thereby eliminating stress & toxins from the body while increasing the body’s natural ability to heal. In the beginning class, students will learn the first level of Reiki healing for self-care and healing as well as Holy Fire Reiki which is a more refined, powerful energy (hands-on).

In the Reiki II class students will learn Reiki healing for the purpose of deepening their practice toward the healing of self and others. The class emphasizes the active and experiential practice of Reiki integrating hands-off or distance healing into the student’s knowledge of hands-on healing from Reiki Level I. Additional self-care techniques will be introduced including mindfulness meditations focusing on breathing and awareness of subtle energies.

Take both classes together and receive a 15% discount.

TRAFFIC SCHOOL

Pre-register to save \$5 on your class registration! Traffic school classes fill quickly - if you register any time before the day of class, you will ensure your spot AND save \$5!

Cerritos College (traffic school #TVS00087) offers an eight hour class, taught in English. After obtaining permission from the courts to attend traffic school, you can then register for traffic school.*

You must bring your driver's license and citation to class - if you do not, your information cannot be entered into the CA DMV website and you will not get credit for your traffic school attendance. If your ticket was obtained out of state, you MUST VERIFY BEFORE REGISTERING with the out-of-state courts as to if they will accept the completion receipt (not all will). If you register and the out of state court rejects your completion receipt, no refund will be given.

Per DMV regulations, class begins at 8am sharp - you cannot arrive late. Please arrive approximately 15 minutes before class begins in order to buy your parking permit, find your class location on campus and fill out your paperwork you need to complete for your class. You need to be in your seat at the start of class - if you are late, you will not be let in, and no refund will be issued.

At the completion of class, you will receive a completion receipt. Within three business days, the office will enter your attendance and information you provided on the forms you completed into the CA DMV system electronically; this is how the courts will know that you completed your class. *Per DMV regulations, commercial drivers are prohibited from attending traffic school except if they obtain a violation when operating a non-commercial vehicle (per AB 1888).
