## ***CLASS INFORMATION***

---

We are happy to be able to offer both in-person and online classes. **Within our summer schedule all classes listed are offered in-person unless “online” is indicated.** Below is very important information that you will need to know when accessing our classes in-person or online.

**In-Person Classes** – You will receive information regarding materials, classroom location and parking location prior to the start of class. The college follows COVID protocols of classrooms being thoroughly cleaned, social distancing is practiced when available, and mask wearing indoors is strongly encouraged. All students must practice hand hygiene (washing and sanitizing) and refrain from attending class if feeling sick.

Also, to ensure that the health and safety of our community and in an ongoing effort to minimize the spread of COVID-19 and its variants, the Cerritos College Board of Directors have made, upon the recommendation of the CDC, and local and state government, improvements to Cerritos College COVID protocols (access complete protocol here: Cerritos Community College District BP2905). **All participants, 12 years and over who attend any type of class on campus must be fully vaccinated. Full vaccination is considered to be two-shots of either Moderna or Pfizer, or one shot of Johnson and Johnson). Vaccination is strongly encouraged for students under 12 years old.** Please consider this when registering for in-person classes.

All students, regardless of age, must follow the following steps when taking in-person classes.

### **Step 1. Required Health Screening**

Before you arrive on campus, complete the health screening COVID-19 questions online within four (4) hours of your arrival.

### **Step 2. Clearance**

Once approved, you will be cleared to come to campus.

### **Step 3. Mask Up**

Surgical masks are recommended. Wear your face covering over your nose and mouth when you arrive to campus. Face coverings should be worn at all times inside campus facilities.

### **Step 4. Wristbands**

Visit the Health Screening Kiosk to get your wristband. Wristbands must always be worn on campus (participants in the College for Youth program will visit the health screening area located in Lot 8, adults taking classes will visit the health Screening area in the Health Science Corridor).

### **Step 5. Report your Symptoms**

If you are on campus, you are required to report to contact Community Education if you:

- Receive a positive COVID-19 test.
- Experience COVID-19-related symptoms.
- Been in close contact with someone who is COVID-19 positive.

Here is the link you will use to complete the pre-screening:

- scan the QR code below to sign in
- Text “cerritos” to 562-273-9224 for the link to check in
- Please type the word class under visitor company and reason why you are visiting

**Online Classes** – We will continue to offer our amazing classes live online( via zoom or a similar platform). These classes allow for live instruction and as much student-teacher interaction as possible. Whichever type of online course you choose, you can do it from the comfort of your couch, your backyard, or the beach... wherever you like! No traffic, all you need is a computer, laptop or smartphone, it's that easy!

Whichever way you decide to take our classes we are happy that you've chosen our program and look forward to “seeing” you either in-person or online. As always, feel free to contact us at [CommunityEd@Cerritos.edu](mailto:CommunityEd@Cerritos.edu) or (562) 467-5050 (press #1)

Have a Great Class!

## SUMMER YOUTH PROGRAM INFORMATION

### SUMMER YOUTH PROGRAM— HERE'S WHAT YOU NEED TO KNOW...

Our kids/teens summer program is set up into three sessions. Each session is two weeks long and runs every weekday, Monday through Friday (excluding holidays).

**Session #1: June 13<sup>th</sup> – June 24<sup>th</sup> (no class June 20<sup>th</sup>)**

**Session #2: June 27<sup>th</sup> – July 8<sup>th</sup> (no class July 4<sup>th</sup>)**

**Session #3: July 11<sup>th</sup> – July 22<sup>nd</sup>**

Each session, classes begin every two hours (8am, 10am, 1pm & 3pm). You choose the dates that work for you, then choose the class(es) you want your child to take.... *it's up to you!*

### ENROLLMENT

- Students Exposure to College: These icons below represent the Learning Career Pathways at Cerritos College. You will see them throughout our schedule as a way to immerse our youth in the Cerritos College experience.

**<https://www.cerritos.edu/learningcareerpathways/default.htm>**

- On pages 6-8, you will find our **Youth Schedule Planner**; this is our “cheat sheet” to help you easily see the main details about each session (dates, times, class titles). We also provide the age range for the class, as well as the page numbers as to where you can find the description details about each class.
- Your child is registered in a class upon payment for that class. If there is also a material fee listed for a class, this is paid directly to the teacher on the first day of class.
- Session #1 and Session #2 classes will not have class on Monday, June 20<sup>th</sup> and July 4<sup>th</sup> (holidays), so the registration fee is reduced, due to one less class meeting.
- Classes are filled on a first come, first served basis. If a class is full, you can put your child on the waiting list. If a spot opens up in that class, you will be contacted to see if you want to register your child at that time.

# CHILD / TEEN CLASSES

## READING & WRITING

### STRATEGIES FOR STRENGTHENING READERS

#### GRADES 3-5

For many young readers, fluency can be a stumbling block, keeping them from greater reading comprehension. Through the use of guided reading, the teacher will work with your child in small groups as well as individually at their instructional level to guide them to using the context, visual, and structural cues within the story to generate meaning. These strategies are proven to be extremely useful for independent, fluent reading and decoding. This class will focus on changing your slower or even word-by-word reader into a more fluent reader who reads with greater understanding.

Mon-Fri, 6/27-7/8 (no class 7/4) 3:00pm-4:45pm  
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/11-7/22 1:00pm-2:45pm  
\$129 (plus \$5 material fee, payable to Teacher).

**Teachers:** *Kari Roche*

### READING COMPREHENSION & IMPROVEMENT STRATEGIES

#### GRADES 3-5 & GRADES 6-9

Master the skills needed to be an effective reader! You will learn how to find the main idea, increasing your vocabulary, drawing conclusions from what is read, spotting an author's purpose and point of view, sequencing, cause and effect, comparison and contrast and inference.

Students will be exposed to different comprehension strategies that will aid in their reading and understanding of short stories and chapter books. They will learn to read more closely to identify themes, social commentaries, and purposely chosen words that give what they are reading a new and more rich meaning.

## BUSINESS & MANAGEMENT

### PROJECT MANAGEMENT CERTIFICATE SERIES

20-hour Project Management certificate upon completion of four courses

**SERIES DISCOUNT: save 10% for registering for the series!**

#### PROJECT MANAGEMENT INTRODUCTION

Businesses use project management to manage projects and achieve outcomes typically with limited resources and under critical time and cost constraints. This introductory class will provide you with an overview of the key concepts and terminologies of Project management. You will learn the basics of project management related to the project approach within different organizational structures and environments with their respective strategy of governance, and how their goals and objectives dictate project success.

**In this class, you will learn about:**

- The skills and responsibilities of a project manager
- Who are stakeholders and how they influence projects
- How a project team is formed and developed
- Differences between project and product life cycles
- How projects are created and selected
- Make your projects effective and complete successfully

Sat, 8/6

8:00am-1:00pm

\$85 (plus a \$5 material fee, payable upon registration).

#### PROJECT REQUIREMENTS AND PLANNING MANAGEMENT

The primary contributors to challenged and failed projects are poor, ill-defined requirement definitions and failure to adequately plan to properly execute on the project. This class will provide you with the knowledge, tools and techniques required to minimize or avoid requirements related problems. Proper advance planning on a project guides its execution toward ensuring its successful performance.

**In this class, you will learn about:**

- Development of the project's requirements
- How to create the project charter
- Role of Work Breakdown Structure (WBS) and its components to link project's deliverables, scope, requirements and work
- The major elements of a project management plan
- How to manage changes to the baseline plans

Sat, 8/13

8:00am-1:00pm

\$85 (plus a \$5 material fee, payable upon registration).

#### PROJECT TIME AND COST MANAGEMENT

Time and cost represent two-thirds of a project's triple constraint. Building a time schedule to meet the project plan is a group technique that requires project manager's leadership skills and attention to the big picture as well as the details. In addition, financial viability is a priority concern of stakeholders examining a project, so Project Cost Management is primarily concerned with the cost of labor and material resources needed to complete the project work.

**At the end of this class, you will be able to:**

- Create network diagrams relating project activities
- Identify the critical path for the project and how to reduce it
- Distinguish between static (waterfall) and dynamic (agile) scheduling
- Implement cost estimating techniques to develop an estimate
- Use Earned Value Management (EVM) method to measure project performance and to forecast remaining work on the project

Sat, 8/20

8:30am-12:30pm

\$85 (plus a \$5 material fee, payable upon registration).

#### MANAGING QUALITY AND RISKS IN PROJECTS

Managing quality in projects is to ensure the project's product conforms to the intended requirements as well as meets (or even exceeds) the expectations of its customer. All projects are inherently risky due to their unique characteristics, so managing the negative risks (threats) by mitigating them while enhancing the positive risks (opportunities) helps the project manager maximize the probability of achieving overall project objectives.

**At the end of this class, you will be able to:**

- Define costs of quality, conformance and non-Conformance
- List 7 basic quality control tools and how to apply them
- Know various risk categories and what risk register is
- Perform qualitative and quantitative assessments of risk events
- Select appropriate response for a given risk event
