SUMMER YOUTH PROGRAM— HERE'S WHAT YOU NEED TO KNOW...

Our kids/teens summer program is set up into four sessions.
Each session is two weeks long and runs every weekday, Monday through Friday.

Session #1: June 17th – June 28th

Session #2: July 1st – July 12th (no class July 4th)

Session #3: July 15th – July 26th

Session #4: July 29th – August 9th

Each session, classes begin every two hours (8am, 10am, 1pm & 3pm).
You choose the dates that work for you, then choose the class(es) you
want your child to take.... *it's up to you!*

ENROLLMENT

- On pages 6-9, you will find our **Youth Schedule Planner**; this is our “cheat sheet” to help you easily see the main details about each session (dates, times, class titles). We also provide the age range for the class, as well as the page numbers as to where you can find the description details about each class.
- Your child is registered in a class upon payment for that class. If there is also a material fee listed for a class, this is paid directly to the teacher on the first day of class.
- All session #2 classes will not have class on Thursday, July 4th (holiday), so the registration fee is reduced, due to one less class meeting.
- Classes are filled on a first come, first served basis. If a class is full, you can put your child on the waiting list. If a spot opens up in that class, you will be contacted to see if you want to register your child at that time.
- If you select swim lessons for your child, the class times are shorter than our other classes. If your child will have a break in their schedule before or after their next class, they must be signed up for our **HOURLY OF FUN! after swim** (see page 3 for details).

TEACHERS & STAFF

- Classes are taught by qualified teachers – all academic courses are taught by credentialed teachers and our enrichment courses are taught by instructors who have extensive experience in the subject being taught.
- There are student assistants helping in classes and during transition times and breaks.
- All teachers, student assistants and office staff working at Cerritos College have been fingerprinted and have a clean background check.

ARRIVAL & DEPARTURE

- Students should arrive 10-15 minutes prior to their class. You may pull up and drop off your child at our pick-up/drop-off area (located in parking lot 9). In that lot, there will be staff as well as signs to guide you as to where to go and drop off your children.
- Do not drop off your child prior to 7:45am – there is no supervision before this time. Also, please make sure you pick up your child after their class(es) end; there is no supervision 15 minutes after the end of each class. We do offer extended supervision after 4:45pm, sign up your child for After Hours Care (see page 4 for details).
- If you decide to park on campus, you will need to purchase a parking pass. You can purchase \$2 daily passes from the parking pass machines in the parking lots, or a \$25 all summer pass can be purchased from Campus Police for use in the white student stalls.

BREAKS & LUNCH

- Children are supervised during the 15-minute transition time before and after classes.
- If your child brings a snack, we ask that they eat it during the transition time between classes and not during class.
- Lunch break is from 11:45am – 12:45pm; your child can bring a sack lunch or can bring money and buy food from our on-campus food vendor, located in our lunch area.
- Lunch break is supervised by our student assistants. There is no additional cost for this supervision; however, please register your child for this service so that we know how many kids will be staying with us over the lunch break.

HOURLY OF FUN! (after swim)

(Supervised care after swim, 11-12pm OR 2-3pm)

- If your child is taking a 10:15am or 1:15pm swim lesson and has a break before their next class, you will need to enroll them in **HOURLY OF FUN! after swim** (as kids are not allowed to stay on campus without supervision). Once their **HOURLY OF FUN! after swim** is done, a student assistant will escort them to the lunch area or their next class.
- You need to pre-register your child - the cost is \$59 for each two-week session.
- NOTE: This is supervised time playing outdoor games and board games -it is NOT extra swim time and is NOT held in the pool.

AFTER HOURS CARE

(Supervised care after 3-4:45pm class, 4:45-5:45pm)

- Do you need your child to be taken care of after their 3pm class ends? Enroll them in AFTER HOURS CARE, which is supervised activity time from 4:45pm until 5:45pm (you can pick up your child at any time during that hour).
- Pre-registration is required; the cost is \$55 for each two-week session.

SUPERVISION

- There is supervision of students 15 minutes before & after classes, during all class times as well as during breaks and lunch.
- Our student assistants will help with the drop-off / pick-up of your children (getting them in and out of your car safely), and assist them in lining up for their class. For their safety, please drop off only in the designated drop-off / pick-up area.
- Your child will be escorted to and from their classes by our student assistants and their teachers.
- For their safety, we require all students 12 of younger to be with one of our staff members or teachers; while on campus they are not allowed to be on their own at any time.

PROGRAM POLICIES

- Only registered students are allowed in the classrooms - no parents, other adults, or other kids who are not registered are not permitted in the class(es).
- Respect for self, others, materials and equipment will be expected. In the event that a student is not meeting our code of conduct, we will try and work out the situation with the student, so as to minimize any disturbance/disruption to anyone (the student, his/her classmates, and/or the teacher).
- If you need to cancel or transfer any class, we need three or more business days' notice prior to the start of the class(es). There will be a \$10 fee charged for any cancellations or transfers.

All Community Education summer youth instructors teaching academic courses are credentialed K-12 teachers and/or hold a bachelor's degree or higher in the subject matter they are teaching. PHONICS & READING FLUENCY

GRADES 1-2

Phonics and blending sounds together to make words are important skills for reading. In order to read more fluently and to comprehend what we read, we need to sound out words correctly and recognize them as words. This class will focus on phonics, learning the sounds needed to put together to make words. It will also put words together to make basic sentences that students can read with fluency and expression. It will include a variety of hands-on activities, group and individual work and practice drills to help increase fluency and reading skills.

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$129

Mon-Fri, 7/15-7/26 3:00pm-4:45pm
\$129

Teachers: Sonia Marroquin, Sebastian Bustamante

"This was the best class I ever went to because we got to figure out words. I also liked learning lots of new things." Tracy, age 6

ACADEMIC ADVENTURE

GRADES 1-3

Kick off your summer by reinforcing this year's language AND math concepts and getting ahead for next year. The language arts section emphasizes phonics, reading, writing, speaking, and listening; the mathematics section incorporates a hands-on approach through games and activities to mathematical ideas and concepts. Learning happens here using a variety of fun-filled activities designed to increase your child's skills, ultimately increasing their ability for success in school.

Mon-Fri, 6/17-6/28 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teachers: Kim Jeremia, Sonia Marroquin

STRATEGIES FOR STRUGGLING READERS

GRADES 1-3

For many young readers, fluency can be a stumbling block, keeping them from greater reading comprehension. Through the use of guided reading, the teacher will work with your child in small groups as well as individually at their instructional level to guide them to using the context, visual, and structural cues within the story to generate meaning. These strategies are proven to be extremely useful for independent, fluent reading and decoding. This class will focus on changing your slower or even word-by-word reader into a more fluent reader who reads with greater understanding.

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teachers: Kim Jeremia, Sonia Marroquin

READING & WRITING ROAD TRIP

GRADES 1-3

Get your child on the road to being a successful writer! Students will read short selections to determine the structure of a story. Then they will pre-write, brainstorm ideas and write a rough draft for their own story. During the second week, they will revise, edit and create a final copy of their own story, which they can then share with you!

Mon-Fri, 7/15-7/26 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 1:00pm-2:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Kim Jeremia

READING COMPREHENSION

GRADES 3-5

Students will be exposed to different comprehension strategies that will aid in their reading and understanding of short stories and chapter books. A whole new world can open up for your child as they learn to read more closely to identify themes, social commentaries, and purposely chosen words that give what they are reading a new and more rich meaning.

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 1:00pm-2:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teachers: Chris Bowen, Sonia Marroquin

GRAMMAR GEAR-UP!

GRADES 3-6

Language mechanics and basic grammar skills are too often overlooked and yet are the foundation for good written communication. Students will review parts of speech, mechanics, and the most common writing mistakes kids make. Your son/daughter will "gear-up" on their grammar and will be armed with what they need to know to be more successful in their writing.

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$119 (plus \$5 material fee, payable to Teacher).

Teacher: Sonia Marroquin

SENSATIONAL SENTENCES

GRADES 3-6

Students will learn to write actively in writing and reviewing their own complete sentences; utilizing descriptive details that will bring their writing to life! They will gain knowledge of the four sentence types, as well as subject-verb agreement. Each student will come away with confidence and a better understanding of how to write sentences that are SENSATIONAL!

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Rachel Roberts

CREATE YOUR OWN STORYBOOK

GRADES 1-4

Let your child's imaginations soar! They will be able to create their own storybook – written and illustrated by them!

Throughout the class, your child will be helped in developing/writing their own story, and then they will be able to experience different drawing and painting techniques as well as different mediums to create illustrations for their story. By the end of the class, your child will have their very own storybook.

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$129 (plus \$10 material fee).

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$129 (plus \$10 material fee).

Teachers: Cristian Equihua, Karia Roche

WRITING ACADEMY

GRADES 3-5 OR GRADES 6-8

This class will focus on teaching your son/daughter to organize and create cohesive sentences, paragraphs and short essays. In addition to strengthening brainstorming, outlining, sentence and paragraph construction, this class will also strengthen grammatical and spelling skills. Students will have opportunities to participate in classroom as well as individual writing exercises which will help them to gain confidence in their writing skills.

GRADES 3-5

Mon-Fri, 7/1-7/12 (no class 7/4) 8:00am-9:45am
\$119 (plus \$5 material fee, payable to Teacher).

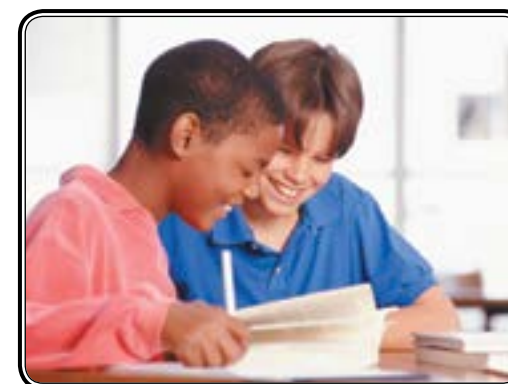

Mon-Fri, 7/15-7/26 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

GRADES 6-8

Mon-Fri, 6/17-6/28 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

\$119 (plus \$5 material fee, payable to Teacher).

Teachers: Sonia Marroquin, William Holmes

READING IMPROVEMENT STRATEGIES

GRADES 4-6 OR GRADES 6-8

Master the skills needed to be an effective reader! Depending on your grade level, you will learn about things such as: how to find the main idea, increasing your vocabulary, drawing conclusions from what is read, spotting an author's purpose and point of view, sequencing, cause and effect, comparison and contrast, and inference. You will learn how to apply these strategies and skills to become a better independent reader during the school year.

GRADES 4-6

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 8:00am-9:45am
\$119 (plus \$5 material fee, payable to Teacher).

Teacher: William Holmes

GRADES 6-8

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Chris Bowen

CREATIVE WRITING

GRADES 4-7

What separates a writer from a normal person? Writers notice things—and write them down! This class will explore the practice of keeping a writer's notebook. More than a journal, a writer's notebook is a place to record things you see, overhear, touch, and experience. Finally, the writer's notebook is a launch pad for short story ideas, poetry, and so much more!

Week one will be spent collecting ideas, thoughts, and words. Week two, we will develop at least one of these ideas into a larger piece of writing.

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teachers: Chris Bowen, Rachel Roberts

POWERHOUSE WRITING

GRADES 4-8

Students will work on developing clear and precisely written paragraphs on a variety of topics. They will create strong topic sentences, interesting details and sensational closing sentences using a "powerhouse" format. They will learn to write expository, narrative and descriptive paragraphs and work on how to put these together effectively to create a longer piece by the end of the course.

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Chris Bowen

EXPOSITORY READING & WRITING

GRADES 7-12

Does your son or daughter possess the required writing skills they need to be prepared for college? The Expository Reading and Writing Course (ERWC) will make sure they do! The goal of ERWC (created by Ca. State University Professors) is to prepare students for the literacy demands of higher education. Through a sequence of instructional modules using primarily non-fiction texts, students develop proficiency in expository, analytical, and argumentative reading and writing (all key components of the Common Core). Help arm them now with the skills to be ready for college level work!

Mon-Fri, 7/15-7/26 3:00pm-4:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Chris Bowen

SAT WRITING & VOCABULARY

GRADES 9-12

Planning to go to college? Be prepared to do great on your SAT exam! You will practice maximizing every minute you are given for this section of the test and writing an effective essay. You will learn what needs to be included in the essay to earn a high score. Sample essay prompts will be given.

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 3:00pm-4:45pm
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Chris Bowen

SPEAK TO ME! PUBLIC SPEAKING

GRADES 4-8

Do you find yourself nervous the days you have a presentation in class? Palms sweaty? Voice crackling? Body shaking? Feel like the whole world is staring down at you? Do not worry - you are normal...you just have stage fright. This class teaches you the strategies for becoming a successful speaker who beams with confidence. You will be a pro at delivering speeches in no time!

FOREIGN LANGUAGE

AMERICAN SIGN LANGUAGE (A.S.L.) **NEW**

GRADES 5 - 12

In this Intro class, you'll learn basic signs, as well as a bit about the history of signing and etiquette when interacting with a deaf person. Lessons will be taught in an interactive manner through the use of role play, videos and worksheets.

Who knows, perhaps you'll decide to continue your learning and become a certified interpreter one day! This is also a good way to see if you might like to pursue ASL in college (ASL is recognized by the CSU's and UC's as a credit bearing class through the UC's or CSU's).

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$129

Teacher: Ethel Battles

SPANISH INTRODUCTION

GRADES 2-6 OR GRADES 7-12

Would you like to learn how to speak a different language? Spanish is spoken frequently in California, making it the best second language to know! An introduction to vocabulary and the basic structure of the Spanish alphabet will be taught. Speaking and listening comprehension will be emphasized through the use of realistic conversation in class. Writing and reading activities will also be done regularly in this class.

GRADES 2-6

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$119 (plus \$5 material fee, payable to Teacher).

MATH BASICS

GRADES 1-3

Help your child gain the fundamental skills they need to be successful in all subsequent math classes. They will practice and improve their skills in addition, subtraction and multiplication. Through group activities and math games, your child will be learning math concepts while they are having fun! There will also be some independent work where they can work at their own pace, getting assistance when they need it.

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$135 (includes workbook).

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$125 (includes workbook).

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$135 (includes workbook).

Teachers: Kim Ieremia, Adrian Durazo

ACADEMIC ADVENTURE

GRADES 1-3

Kick off your summer by reinforcing this year's math AND language concepts and getting ahead for next year. The math section incorporates a hands-on approach to mathematical ideas and concepts. The language arts section emphasizes phonics, reading, writing, speaking, and listening. Learning happens here using a variety of fun-filled activities designed to increase your child's skills.

Mon-Fri, 6/17-6/28 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$119 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Mon-Fri, 7/29 - 8/9 8:00am-9:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teachers: Kim Ieremia, Sonia Marroquin

MATH ESSENTIALS

GRADES 4-6

Once your child has mastered basic adding, subtracting and multiplication, there are other core skills that they will need to learn. This class will cover the other fundamentals such as complex multiplication, division, word problems, lowest common multiplier (LCM), greatest common factor (GCF), and lowest common denominator (LCD). Once these concepts have been introduced, students will work at their own pace, with the instructor helping them individually as they need assistance.

Mon-Fri, 7/15-7/26 8:00am-9:45am
\$135 (includes workbook).

Teacher: Karia Roche

MINECRAFT – UTILIZING MATH TO CREATE!

GRADES 4-7

Come join us to learn about and play one the most popular computer game on the planet!

Learn Minecraft building techniques, details of command blocks, and how to change the look of the game. Your child will also strengthen their math and beginning algebraic concepts to design their roads, buildings and cities. They will hone their skills of strategy, team building, and cooperation skills while playing Minecraft in a fun, safe, and supervised environment!

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$135 (includes 2GB USB drive).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$145 (includes 2GB USB drive).

Teacher: Parker Anderson

FRACTIONS, DECIMALS, PERCENTS – OH MY!

GRADES 4-8

One of the most difficult concept for students to learn is fractions...this class will help students become more familiar and comfortable with fractions, decimals and percentages through the use of notes, lecture and activities to stimulate learning. The class follows the elementary and middle school standards for math. Learn the skills needed to be able to feel ready to handle problems with fractions, decimals and percentages - it doesn't have to be scary!

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$135 (includes workbook).

Mon-Fri, 7/1-7/12 (no class 7/4) 3:00pm-4:45pm
\$125 (includes workbook).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$135 (includes workbook).

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$135 (includes workbook).

Teachers: Adrian Durazo, Eric Hoyer

PRE-ALGEBRA

GRADES 4-10

You will learn about substitution, how to solve one and two-step algebraic problems, as well as work with exponents. You will also learn to factor polynomials and the coordinate plane. This class is designed to aid you in the discovery of pre-algebra. Once these concepts have been introduced, students will work at their own pace, with the instructor helping them individually as they need assistance.

Mon-Fri, 6/17-6/28 3:00pm-4:45pm
\$135 (includes workbook).

Mon-Fri, 7/1-7/12 (no class 7/4) 8:00am-9:45am
\$125 (includes workbook).

Mon-Fri, 7/15-7/26 3:00pm-4:45pm
\$135 (includes workbook).

Mon-Fri, 7/29-8/9 10:00am-11:45am
\$135 (includes workbook).

Teachers: Joe Benoun, Adrian Durazo

"This class was more interesting than my regular class...and the instructor made learning math fun!"
Steven, age 14

SPORTS & STATS

GRADES 6-12

Who's the greatest athlete of all time? Is it Lebron James, Tom Brady, Jackie Robinson or Mike Trout? In this class we'll use statistics to make our case, as well as track and compare current athletes. We will also participate in whiffle ball, basketball, and other sports while keeping track of our own personal statistics to monitor our progress. This will provide an engaging, hands-on way to apply real life math skills.

Note: bring water and wear comfortable clothes you can move in each day.

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$129

Teacher: Mark McLaughlin

ALGEBRA I

GRADES 6-12

Begin learning or increasing your algebra skills such as factoring polynomials, solving multi-step problems, and writing equations from word problems and then solving them. You will also learn how to graph lines and parabolas. Once these concepts have been introduced, you will be encouraged to work at your own pace, with the instructor helping you individually as you need assistance.

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$135 (includes workbook).

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$125 (includes workbook).

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$135 (includes workbook).

Mon-Fri, 7/29-8/9 1:00pm-2:45pm
\$135 (includes workbook).

Teachers: Joe Benoun, Adrian Durazo

ALGEBRA II

GRADES 8-12

Advance your algebra skills to the next level. Learn how to graph and solve the absolute value function, the inequality function, and the quadratic function. Discover the laws of exponents and the inverse functions of logarithms. Learn to factor perfect squares, differences of squares, and the sums and differences of cubes. Enter the world of the matrix - learn how to solve a system of equations in 3D using Krammer's Rule. You are encouraged to work at your own pace, with the instructor helping you individually as you need assistance.

Mon-Fri, 7/15-7/26 1:00pm-2:45pm
\$135 (includes workbook).

Teacher: Adrian Durazo

GEOMETRY

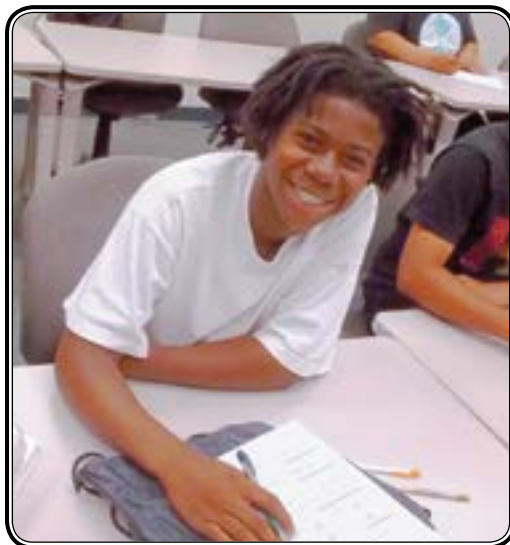

GRADES 8-12

Study the system of geometry by starting with the basics. Learn the correct way to name a line, ray, an angle, or line segment. Learn the hierarchy of intersections, and triangles. Study parallel and perpendicular lines and the angles they make. Become skilled at geometric solids and how to find their areas... and more. Once these concepts have been introduced, you will be encouraged to work at your own pace, with the instructor helping you individually as you need assistance.

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$135 (includes workbook).

Mon-Fri, 7/15-7/26 3:00pm - 4:45pm
\$135 (includes workbook).

Teacher: Joe Benoun

SAT MATH

GRADES 9-12

Learn how to increase your math score on the SAT! This course is designed to better prepare you to take the math section of the SAT. You will take actual math SAT exams and will be given test strategies needed to help improve scores for the SAT exam. Various kinds of math problems will also be discussed.

Mon-Fri, 6/17-6/28 3:00pm-4:45pm
\$135 (includes workbook).

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$125 (includes workbook).

Mon-Fri, 7/15-7/26 10:00am-11:45am
\$135 (includes workbook).

Teacher: Joe Benoun

SCIENCE

DINOSAURS: MONSTERS FROM THE PAST

GRADES 1-4

Dinosaurs, the large monsters from the past. Have fun learning about these mighty creatures that lived millions of years ago. Read amazing facts, find fun ideas, watch awesome videos, have a dinosaur fossil hunt, and make your own fossils. Put a little roar into your day as you discover secrets buried in the Earth.

Mon-Fri, 6/17-6/28 3:00pm-4:45pm
\$129 (plus \$20 material fee, payable to Teacher).

Teacher: Luis Pelayo

SCIENCE U CAN DO!

GRADES 1-4

Are you curious about the world around you and love to explore it? This course will provide you with a strong scientific foundation through fascinating and rewarding experiments such as home-made volcanoes to being able to "see" sound and everything in between! This class will have you discovering something different everyday that can create the fascination in the science all around us!

Mon-Fri, 7/29-8/9 1:00pm-2:45pm
\$129 (plus \$15 material fee, payable to teacher).

Teacher: June Maehara

Back by Popular Demand

OOEY GOOEY SCIENCE!

GRADES 2-4 OR GRADES 5-7

This is a messy but super fun way to learn science! Your child will learn whether slime is a solid or a liquid and will explore polymers, non-Newtonian fluids, and much more. They will experiment making glow-in-the-dark slime, magnetic slime, and monster slime, just to name a few. We will have scientific activities that will help them explore, explain, and elaborate on their understanding of chemical reactions and every day we will have hands-on experiments and take home projects.

GRADES 2-4

Mon-Fri, 7/1-7/12 (no class 7/4) 8:00am-9:45am
\$119 (plus \$20 material fee, payable to Teacher).

Mon-Fri, 7/15 - 7/26 10:00am-11:45am
\$129 (plus \$20 material fee, payable to Teacher).

GRADES 5-7

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$119 (plus \$20 material fee, payable to Teacher).

Mon-Fri, 7/15-7/26 8:00am-9:45am
\$129 (plus \$20 material fee, payable to Teacher).

Teacher: June Maehara

STEAM INVENTION CHALLENGES

GRADES 4-7

Let's have our kids learn how to be more than just consumers of technology...they can start to become creators/inventors. Through the use of easy to use the littleBits™ electronic building blocks, your child will learn to create basic circuits and create several different in-class inventions. They will also engage in short rounds of mini-challenges with their peers, to help build their creative confidence, develop critical thinking and foster collaborative teamwork.

Mon-Fri, 7/1-7/12 (no class 7/4) 3:00pm-4:45pm
\$125

Teacher: Brian Abumada

SECRETS OF THE EARTH: GEOLOGY, ARCHAEOLOGY & PALEONTOLOGY

GRADES 4-7

In this physical science STEAM course, students will get their hands dirty as they use science to discover mysteries about the earth's past. They will do hands-on experiments to learn about plate tectonics and the properties and characteristics of minerals, practice professional archaeological techniques for safely unearthing artifacts, and even perform their own "dinosaur dig" with real fossils that are millions of years old! And best of all, if you find it, you keep it!

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$135 (plus \$20 material fee, payable to Teacher).

Teacher: Luis Pelayo

ROCKET SCIENCE & ASTRONOMY

GRADES 4-8

Ready, set, blast off! Explore the Universe as we launch everything from Film Canister Rockets, to Water Bottle Blasters, Business Card Boomerangs, and much more! Our adventures will take us to Titan, Mars, and a Galactic Cluster as we learn about comets, constellations, and our galaxy! This class is out of this world!

Mon-Fri, 6/17-6/28 8:00am-9:45am
\$145 (includes all materials)

Teacher: Parker Anderson

THE DOCTOR IN YOU!

GRADES 5-8

The first steps towards becoming a doctor is understanding how the human body works. Students will play the role of premed student to gain a better understanding of how the body works through investigations in comparative anatomy and organ evolution. A wide range of species will be observed/ dissected and projects will introduce students to biology, medicine and human physiology.

Mon-Fri, 7/1-7/12 (no class 7/4) 3:00pm-4:45pm
\$145 (includes all materials).

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$155 (includes all materials).

Teacher: Bryan Jernigan

CSI: CRIME SCENE INVESTIGATORS

GRADES 5-8

Have you ever wanted to know how to solve a crime? You will learn how crime scene investigators solve the most mysterious crimes. Learn how to photograph crime scenes, search for fingerprints, evaluate bloodstain patterns (using simulated blood), and document, collect, and preserve different types of evidence. This is the most intriguing way to learn scientific principles from the realms of biology, chemistry and physics. Come and join us as we try to figure out who-dun-it!

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$129 (plus \$20 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$119 (plus \$20 material fee, payable to Teacher).

Mon-Fri, 7/29-8/9 8:00am-9:45am
\$129 (plus \$20 material fee, payable to Teacher).

Teachers: Joshua Calhoun, Luis Pelayo

ADVENTURES IN PHYSICS

GRADES 5-8

Have you ever wondered how an airplane flies? Are you curious about sound, light, and air? You will get the answers to many of these questions through hands-on activities. Through performing a variety of experiments, we will explore the actions and reactions of things - bring your curious mind and join us for two full weeks of adventures!

Mon-Fri, 7/15-7/26 3:00pm-4:45pm
\$129 (plus \$20 material fee, payable to Teacher).

Teacher: Eric Hoyer

FUTURE ENGINEERS

GRADES 5-10

Calling all future engineers! Do you like to build things? Would you like to compete against others to determine who has the best design? Then this class is for you. Come sign up and build such things as bridges, catapults, hot air balloons and water rockets. You will then put your design to the test and see if you are the top engineer.

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$129 (plus \$15 material fee, payable to Teacher).

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$119 (plus \$15 material fee, payable to Teacher).

Teacher: Brian Abumada

INTRO TO CHEMISTRY

GRADES 7-10

Are you about to enter a chemistry course this upcoming school year? This class is designed for college prep students who are looking to get a jumpstart on what they'll be learning in their chemistry course in school. We will discuss topics such as measurements, atomic structure, the periodic table, chemical bonding, nomenclature, and chemical reactions. Come join us and get a heads-up in this exciting and challenging course.

Mon-Fri, 7/29-8/9 1:00pm-2:45pm
\$129 (plus \$15 material fee, payable to Teacher).

Teacher: Eric Hoyer

FORENSIC SCIENCE

GRADES 7-12

Forensic Science focuses on the skills and concepts behind crime scene investigation. Whether you desire to be crime scene investigator, forensic pathologist, or some other medical scientist, this course will help you hone your investigative skills and review a wide range of science concepts.

You will review physics, chemistry, anatomy, cell biology, environmental science and computer science in the process of learning about forensic science. You will engage in lectures, labs, case studies, on-line activities, and professional visits as part of this course. This course should help you see how science is used to answer questions rather than just learning science concepts.

Mon-Fri, 7/29-8/9 10:00am-11:45am
\$129 (plus \$20 material fee, payable to Teacher).

Teacher: Joshua Calhoun

MARVEL VS. DC WITH LEGOS

GRADES 2-5 OR GRADES 5-8

Do you like Captain America, Black Widow, Spiderman, Hulk, Superman, Batman, Flash, or Wonder Woman? We have all of those LEGO characters... & more! You will create and animate your own superhero movies using the art of stop-motion animation.

The class starts with creating an idea involving Marvel or DC heroes or super villains. Students will then create the stories, choose their favorite Lego Mini-figures from our collection, shoot the movie on provided iPods, film the movie, and become the voices for all the characters. By the end of class, you will have created your own animated superhero movie as well as answered the question of which universe is better - Marvel or DC? All movies will be available to view and download.

COMPUTER KEYBOARDING

GRADES 2-7

It helps your spelling! It helps your writing skills! And it is a necessity if you want to use a computer. Learn to type the fun, fast, and easy way. By learning the proper way to hold your hands/fingers while inputting on a computer keyboard, you will be able to increase your speed when using the computer as well as know exactly what all the keys are and how you can use them to take full advantage of your computer.

On the first day of class, you will get a 2GB USB drive- please bring this to class every day.

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$135 (includes 2GB USB drive).

Mon-Fri, 7/1-7/12 (no class 7/4) 8:00am-9:45am

MINECRAFT – UTILIZING MATH TO CREATE!

GRADES 4-7

Come join us to learn about and play one of the most popular computer game on the planet!

Learn Minecraft building techniques, details of command blocks, and how to change the look of the game. Your child will also strengthen their math and beginning algebraic concepts to design their roads, buildings and cities. They will hone their skills of strategy, team building, and cooperation skills while playing Minecraft in a fun, safe, and supervised environment!

Mon-Fri, 7/1-7/12 (no class 7/4) 1:00pm-2:45pm
\$135 (includes 2GB USB drive).

Mon-Fri, 7/15-7/26 10:00am-11:45am

APP INVENTOR

GRADES 4-6 OR GRADES 6-9

New Content!

Design your own apps using MIT's App Inventor program! Create apps of all different types from animation-based, to STEM-based, to just plain old fun games! Students will leave the program with increased critical thinking skills, experience designing STEM based digital projects, and a background in the creative process behind APPS!

GRADES 4-6

Mon-Fri, 6/17 - 6/28 1:00pm-2:45pm
\$145 (includes 2GB USB drive).

CREATIVE IMAGING WITH PHOTOSHOP

GRADES 5-12

You will learn the basics of graphic design and photograph enhancement using Photoshop. Learn to use tools and techniques like professional graphic designers use to draw, paint, and enhance photographs. You will even be able to design your very own t-shirt!

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$135 (includes 2GB USB drive, plus \$15 material fee payable to Teacher).

Teacher: Dedre Robinson

ROBOTICS: LEVEL I

GRADES 6-9

Students will learn to create and build LEGO robotics utilizing machine-tools and engineering design software. Students will also use software to program their robots and compete against other students in the class. Students work in teams of 3-4 and learn valuable skills such as how to creatively team with other students in addition to practical skills in Manufacturing Technology, mathematics and engineering.

Mon-Fri, 7/15-7/26 3:00pm-4:45pm
\$145

Teacher: Julio Guzman

ROBOTICS: LEVEL II

GRADES 6-9

In this class you will be expanding on what you learned in the Robotics Level I class. You will learn how to use basic electronics to design and program a "Boebot" to find its way through mazes and other challenges. Working in teams, students construct a working robot, write computer programs to control the robot, and work with advanced electronic circuits to solve navigation and science problems.

Prerequisite: Students must have taken a previous Robotics class to enroll.

Mon-Fri, 7/29-8/9 3:00pm-4:45pm

COLLEGE PREPARATION

EXPOSITORY READING & WRITING

GRADES 7-12

Does your son or daughter possess the required writing skills they need to be prepared for college? The Expository Reading and Writing Course (ERWC) will make sure they do! The goal of ERWC (created by California State University Professors) is to prepare school students for the literacy demands of higher education. Through a sequence of instructional modules using primarily non-fiction texts, students develop proficiency in expository, analytical, and argumentative reading and writing (all key components of the Common Core). Help arm them now with the skills to be ready for college level work!

Mon-Fri, 7/15-7/26 3:00pm-4:45pm

NATURAL "A'S"

GRADES 4-11

Saturday Class

Any student can significantly improve grades, self-confidence, and chances for scholarships and college admissions by performing academic skills in alignment with the brain's natural patterns. This makes Note-taking, Reading, Studying, Memorizing and Test-taking amazingly efficient. Also discover simple methods for understanding math, science, literature, history, and other subjects; increasing focus and concentration; and eliminating test anxiety. Students of all ages describe this class as "awesome," "necessary," and "easy to understand."

Sun, 8/4 9am-12pm
Community Education, room 7
\$55 (plus \$30 material fee, payable to Teacher for comprehensive workbook).

THE DOCTOR IN YOU!

GRADES 5-8

The first steps towards becoming a doctor is understanding how the human body works. Students will play the role of premed student to gain a better understanding of how the body works through investigations in comparative anatomy and organ evolution. A wide range of species will be observed/ dissected and projects will introduce students to biology, medicine and human physiology.

Mon-Fri, 7/1-7/12 (no class 7/4) 3:00pm-4:45pm
\$145 (includes all materials).

Mon-Fri, 7/29-8/9 3:00pm-4:45pm
\$155 (includes all materials).

CSI: CRIME SCENE INVESTIGATORS

GRADES 5-8

Have you ever wanted to know how to solve a crime? You will learn how crime scene investigators solve the most mysterious crimes. Learn how to photograph crime scenes, search for fingerprints, evaluate bloodstain patterns (using simulated blood), and document, collect, and preserve different types of evidence. This is the most intriguing way to learn scientific principles from the realms of biology, chemistry and physics. Come and join us as we try to figure out who-dun-it!

Mon-Fri, 6/17-6/28 1:00pm-2:45pm
\$129 (plus \$20 material fee, payable to Teacher).

FORENSIC SCIENCE

GRADES 7-12

Forensic Science focuses on the skills and concepts behind crime scene investigation. Whether you desire to be crime scene investigator, forensic pathologist, or some other medical scientist, this course will help you hone your investigative skills and review a wide range of science concepts.

You will review physics, chemistry, anatomy, cell biology, environmental science and computer science in the process of learning about forensic science. You will engage in lectures, labs, case studies, on-line activities, and professional visits as part of this course. This course should help you see how science is used to answer questions rather than just learning science concepts.

NOW YOU'RE COOKING! JR. CHEF

GRADES 1-4

The ability to follow directions is one of the most important skills for a child to have in order to be successful in schoolwork. Cooking is a great way to acquire the skill along with math and reading comprehension skills. Students will learn how to make tasty and healthy recipes. Students will make a small recipe book to start building on the items they have learned to make. Best of all, they get to eat what they make!

Important: Please let the teacher know prior to class if your child is allergic to any food.

SEW... FABULOUS! BEGINNING

GRADES 4-12; ONE WEEK, 1/2 DAY CLASS

All levels welcome! Learning this skill will give students the benefit of expanding their knowledge, exploring creativity with design and be a benefit throughout their lives. Beginning students will learn how to operate a sewing machine, cut out patterns, sewing terms, and the elementary steps needed to make a garment such as buttonholes, and zipper applications. The material fee will provide 5 projects to choose from and the use of sewing supplies.

Students need to bring their own machine (no toy machines) and sewing supplies. Please check your registration confirmation for a list of supplies needed.

Mon-Fri, 7/29 - 8/2 8:00am-11:45am
(one week, 1/2 day)
\$129 (plus \$20 material fee, payable to Teacher).

Teacher: Lana McMillen

SEW... FABULOUS! INTERMEDIATE

GRADES 4-12; ONE WEEK, 1/2 DAY CLASS

This class begins where Sew Fabulous stops. Students will review all that they have learned in their first sewing class by applying techniques to more advanced projects. Some of these techniques will be installation of invisible zippers, side pockets, welt openings and commercial patterns. In addition, students will get hands on experience with an overlock machine.

Each student needs to bring their own machine (no toy machines) and sewing supplies. Please check your registration confirmation for a list of supplies needed.

Prerequisite: Sew Fabulous class or other sewing experience.

Mon-Fri, 8/5-8/9 8:00am-11:45am

Teacher: Carlos Durazo

3D PAPER ART CREATIONS

GRADES 2-7

In this 3D paper craft workshop, students will see how versatile and fun paper can be for building original custom crafts, models and designs. With paper and other materials, students will create unique projects based on their favorite characters or interests all the while having fun. Through working on these projects, students will benefit by developing strong problem solving skills, conceptual design skills, motor skills and learn about three-dimensional art.

Mon-Fri, 7/1-7/12 (no class 7/4) 10:00am-11:45am
\$119 (plus \$10 material fee, payable to Teacher).

Teacher: Cris Equihua

COMIC BOOK ART

GRADES 4-9

It's fun reading comic books and here's your chance to create your very own! In this class, you will learn step-by-step drawing, shading with pencil, facial expressions, and how to create original characters and comic strips. Learn about the tools used by professionals in the field. If you are creative and like to draw, this class is for you!

Mon-Fri, 6/17-6/28 8:00am-9:45am

Teacher: Cris Equihua

ILLUSTRATION

GRADES 4-9

Making illustrations is a fun, but challenging process. This class will introduce the basics of drawing and build your own artistic vocabulary. Discover new art-making techniques with pencil, marker, colored pencil, charcoal and watercolor. By the end of this class, you will have your own art portfolio to take with you displaying your own personal style!

Mon-Fri, 6/17-6/28 10:00am-11:45am
\$129 (plus \$5 material fee, payable to Teacher).

Teacher: Cris Equihua

CERAMICS: EXPRESSIONS THROUGH SCULPTURE

GRADES 5-12

Bring clay to life by exploring the virtually limitless world of functional art through ceramics sculpture. This class is designed to give students an opportunity to express their creativity; they will learn a variety of hand building techniques such as pinching, slab construction, and coiling. Students will also learn different surface decorative techniques like: sgraffito, stenciling, impressed texture, slip painting, and dry-brushing. Students will also be shown various styles of glazing techniques.

PROJECT MANAGEMENT CERTIFICATE SERIES

Take these six classes (on pages 32 & 33) to receive a 36-hour Project Management certificate

PROJECT MANAGEMENT

In this class, you will learn and apply project management principles to a real class project. This is not a class to prepare you for the Project Management Professional (PMP®) exam but it does help you toward that goal. The class explores all areas of project management:

Introduction and Planning - Learn project management concepts, applications, and the project lifecycle.

Cost Management - Learn cost management and controls for project.

Leadership and Teams - Discover approaches to leading teams and working with people as well as how to empower yourself and other team members.

Quality - Explore quality processes, quality control, quality assurance, and measurement concepts.

Risk Management - Know what is required to plan for the things that could go wrong to save time and money in a proactive simple approach.

Procurement and Contracting - Understanding the contracting and procurement process as well as the unique terminology.

Complete your project on time, within budget, and with satisfied customers. Leave the class with a new and successful outlook towards managing projects successfully.

Sat & Sun, 5/11 & 5/12 9:00am-4:00pm
Skills Lab, room 108
\$175 (plus \$30 material fee, payable to Instructor).

"I enjoyed the class and was happy with the course materials. I felt I walked away with more subject knowledge." Anthony

PROJECT REQUIREMENTS: DEFINITION AND MANAGEMENT

The primary contributors to challenged and failed projects are poor requirement definitions in conjunction with a lack of adequate change management and control procedures to those requirements. This workshop will provide you with the knowledge, tools and techniques required to minimize or avoid requirement related problems.

Industry standard templates will be provided to complete workshop exercises.

In this workshop, you will learn how to:

- Develop and document complete project requirements
- Use the WBS to link deliverables, scope, requirements, work and risks
- Implement and manage a change and configuration management approach
- Use standard documents and checklists
- Describe benefits of requirements gathering
- Apply techniques to prioritize requirements

Thurs, 6/1 9:00am-3:00pm
Skills Lab, room 108
\$99 (plus \$20 material fee, payable to Instructor).

PROJECT PLANNING & SCHEDULING TECHNIQUES

Planning and scheduling a project is a difficult but required task. Not only must the project manager know everything about the project but must also consolidate ALL the tasks into a cohesive schedule to guide the project and the team. Building a plan and a schedule is a group technique that requires leadership skills and attention to the big picture as well as the details.

This hands-on class has participants developing a plan and setting up a schedule using simplified techniques that do not require a software tool. Be ready to work when you sign up for this class!

Sat, 6/8 9:00am-3:00pm
Skills Lab, room 108
\$99 (plus \$20 material fee, payable to Instructor).

BUSINESS PROCESS MAPPING

Numerous organizations have not defined their business processes. 85% of an organization's quality and efficiency problems either are built into its systems or are ill-defined. Learn how to identify and eliminate unnecessary costs and activities that do not add value.

Class subject areas include the identification of: core processes, non-value added work, and system flaws resulting in poor quality. Learn how to: define and develop process workflow; start Business Process Management (BPM) initiatives; dramatically improve efficiency and customer satisfaction. The skills learned can be applied in manufacturing, service, health care and public sector organizations.

Sat, 6/22 9:00am-4:00pm
Skills Lab, room 108
\$99 (plus \$20 material fee, payable to Instructor).

DIFFERENTIATING YOURSELF IN THE WORKPLACE THROUGH LEADERSHIP

Studies continue to indicate that approximately 47% of management is still acting like individual contributors.

The old adage that "Leaders are Born" is just not true. Leaders are developed over time through knowledge of self, diverse subject matters, mentoring and guidance and critical decision making in times of change or uncertainty. True leaders pay it forward, are able to see beyond the forest and inspire individuals to perform beyond expectations. This is not a class of skills assessment; it is a practical approach to developing the leader within you.

In this class, you will learn:

- Leadership practices and styles
- What will make you a leader?
- Identify and act on barriers to success
- Break through the culture of your organization to succeed
- Delegating - how far; how much
- Mentoring - for yourself and new employees

Sat, 6/29 8:00am-12:00pm
Skills Lab, room 108
\$79 (plus \$20 material fee, payable to Instructor).

Instructor: Mo Aiken holds a B.S. from Cal Poly and completed graduate work at CSUN & UC Berkeley. He was a Program Planning and Controls Department Manager and PMO at Hughes Aircraft Co. for nine years, three years at TRW and two years at the Naval Surface Warfare Center. After 20 years in high technology R&D, Mo Aiken founded and is the Managing Director of Barra Gwynn Enterprises, a "best practices", problem-solving and leadership consultancy. He has been using the general application of project management principles during his 20+ years as a consultant.

ORGANIZE, PRIORITIZE AND MANAGE YOUR TIME

An old saying about project work among experienced project managers is "the first 90% of a project is the easiest; the second 90% is the hardest". Getting organized and managing your time are skills that may benefit anyone at work or at home. These skills are normally acquired as we find out what does and does not work at the expense of numerous challenges or failures. Learn time-tested approaches to prioritizing your work and managing your time, free up more time in your day and accomplish more... doing it on your time.

In this class, you will take away methods, approaches and lessons about how to:

- Organize your workspace and environment
- Set up simple storage methods to retain information and work
- Keep track of information and the work you need to do
- Prioritize your work, making it easier to complete
- Manage your time in a simplified approach.

Instructor: *Nancy Miller*, of *Rounds, Miller and Associates*, has trained thousands of inventors throughout California, Arizona and Nevada. Nancy's trademark is *Clutterology* and she has numerous copyrights.

BUILD YOUR OWN WEBSITE

If you can use Word, you can create your own website in just minutes for free including text, graphics, a shopping cart and the ability to customize it any way you want it.

Forget about learning HTML code, buying expensive software programs, and spending days in classroom sessions. This class will show you how to have your site up and running quickly; and how to link and list it with the major search engines too!

You will acquire information on how to:

- Effectively use text, graphics, audio and video
- Get a FREE site that can be upgraded
- Add a FREE shopping cart
- Promote your website and link with search engines to make sure you can be found

Thur, 5/9 6:30pm-9:30pm

MOTORCYCLIST TRAINING COURSE (MTC)

16 HOUR COURSE – DMV CERTIFICATE AWARDED (upon successful course completion)

California Motorcyclist Safety Program offers the Motorcyclist Training Course (MTC), which is designed for the novice rider with no (or limited) street-riding experience. This 16-hour weekend course includes both classroom and on-cycle instruction. Although designed for new riders, any rider that has not taken a motorcycle course will benefit from this course. You will learn fundamental skills required to operate the motorcycle and progress to street riding skills and strategies. Topics covered include: overcoming fear, understanding how motorcycles turn, proper cornering strategies, and emergency crash avoidance skills.

This course is mandatory for those under 21 years of age desiring a motorcycle or scooter license. For students under 18, a parent must show ID (or legal guardian proof of guardianship) and sign a waiver at the start of the first class.

You will have 6 hours of in-class instruction and 10 hours of on the range, riding instruction and practice. You must be on time to every part of this course – if you are late, you will be dismissed from the class. Please bring water, and a sack lunch, as you will be in your class all day and will not have enough time to leave campus to purchase food.

A motorcycle and helmet will be provided for you in this course; if you want to complete the course on a scooter, you must notify us upon registering for the class. You need to bring either a valid a state issued driver's license, permit or ID card to the first class. Additionally, you will need to be dressed in a long sleeve shirt or jacket, full finger leather or leather like gloves, long pants and sturdy over the ankle boots.

In accordance with State safety standards, early dismissal may occur during the riding portion of the class if you do not demonstrate safe riding techniques (as determined by the instructor). Your attendance and participation is not a guarantee that you will be able to successfully complete the course.

Students successfully completing the class will receive the DMV completion certificate, which waives the riding portion of the DMV test. Your certificate will be mailed to you within 10 working days of your course completion. (Note: you will still need to take the written test at the DMV).

COMPLETE COURSE OVER ONE WEEKEND:

2-Day course: Sat. 8am-4:30pm & Sun. 8am-4:50pm

classes run most weekends; call or check website for class dates available

MORE PRACTICE – RIDING CLINIC

Let our experienced instructors help to increase your riding skills in a safe environment, helping to boost your confidence in your riding abilities.

The MORE PRACTICE class is for: 1). Students who already have a Class M license and would like to have more practice on a motorcycle to develop stronger riding skills or 2). Students who within the last 45 days have taken the Motorcyclist Training Course (MTC) at Cerritos College and attempted the Skills Test in that course one time but did not pass and want extra practice.

This class offers over four hours of riding time and is kept to a max of six students, to allow time and attention to be given to students to help them develop riding skills. Skills to be focused on in this class are: clutch control, shifting & stopping, riding through curves, weaving, low speed turning & lane changing, negotiating curves, swerving, and more! At the end of the course, a skills evaluation will be done, so you know where you've improved and where you might still need to practice a bit more on your own.

Bikes and helmets are provided (or bring your own DOT approved helmet). Protective clothing and footwear needs to be worn; you will be dismissed if you show up to class without proper gear. You need to bring either a valid CA motorcycle or driver's license, permit or ID card to class.

NOTE: This course will NOT waive your riding test at the DMV; see the MTC course (on previous page) if you are looking for this.

Instructor: Dr. Laura Luna is certified in Reiki I, II and master level Reiki III. She completed training with two different Reiki masters, trained in the Usui for Reiki.

INTRODUCTION TO MEDITATION AND BREATHING

Meditation is a state of being where the mind becomes still and awareness is heightened and internalized. You will learn to meditate in a supportive group environment with techniques that are simple, yet have deep potential. You will also learn simple breathing techniques that increase your energy and promote calmness. Easy to follow instructions will be given each week so you can continue at home if you wish.

Some of the benefits of meditation:

- Decrease stress
- Lower blood pressure
- Improve hormonal issues
- Cope with life's ups & downs more easily
- Reduce anxiety
- Gain more energy
